ICMR-NIOH

Research is inevitable to all spheres of human development. It has relevance in all sciences and health disciplines. It involves a systematic investigation, or a critical and careful examination of information or experimentation in order to find facts or modify conclusions in the light of newly discovered empirical facts. The contemporary development and progress is the reflection of the research endeavour of human kind.

The ICMR-National Institute of Occupational Health is a premier national Institute of Indian Council of Medical Research under Dept. of Health Research, Min. of Health & Family Welfare, Govt. of India, endeavourer of research on occupational and environmental health to provide a safe, healthy and comfortable work environment. As part of specialized human resource development, the ICMR-NIOH is conducting a three-day intensive training on Advanced Instrumentation in Ergonomics for Occupational Health research during 08-10 November 2017.

The program consists of didactic lectures followed by demonstrations/hands on experience on various aspects of ergonomics instrumentation for judicious utilization of human resources in ergonomics research.
